ENTREPRENEURSHIP

• DREAM • EXPLORE • DISCOVER

At Alpha, we believe that education is the process of nurturing our students into confident and successful individuals. Today, young people have a wide range of possibilities ahead of them, including working for others, starting their own ventures and contributing to the global community. All of these options require an in-depth knowledge of their chosen discipline, as well as critical thinking, problem solving skills, leadership abilities, experience in teamwork and adaptability to an ever-changing environment.

These skills are the cornerstones of entrepreneurship education, which prepare students to identify and address challenges and opportunities. Therefore it becomes imperative for a progressive educational institution to focus on teaching students the entrepreneurial mindset along with teaching academic subjects like mathematics, science or history.

In the academic year 2019-2020 we are going to be focusing on imparting knowledge about the following essential and fundamental entrepreneurial skills:

1. **Self-confidence:** Having trust in one's abilities and potentials with the emphasis on strengths and not weaknesses.
2. **Resilience and durability:** Learning that pain, failure and disappointments are as essential as joy and success. Our focus will be on helping students to accept and overcome challenges.
3. **Problem Solving:** Cultivating the ability to focus and tackle a problem using analytical evaluation to form judgments and trusting their innate problem solving abilities for autonomous decision-making.
4. **Creativity and innovative thinking:** Thinking creatively is the key to innovation. Our world is changing so rapidly that people need to be innovative to stay ahead of the curve and be successful. Our focus will be on thinking differently and in multiple ways to solve problems.
5. **Goal setting:** Formulating effective goals and seeing them through to fruition is important for entrepreneurship - what gets measured, gets done. Our focus will be on teaching realistic goal setting with timelines.
6. **Initiative:** Taking the first action towards accomplishing a goal; action to complete something, create something better or achieve something bigger. Focus will be on encouraging action plans towards realisation of dreams and opportunities.
7. **Empathy:** Establishing meaningful relationships is vital for attaining success in leadership responsibilities. Our focus will be on understanding, respecting and getting connected with diverse sets of people.

We expect parents to join us in this endeavour and enable our students to acquire these much-needed skills for a happy and successful life ahead.

Meaning of the National Anthem

You are the ruler of the minds of all the people.

You are the dispenser of India's destiny.

Your name rouses the hearts of

the Punjab, Sindhu, Gujarat and Maratha.

Of Dravid, Orissa and Bengal.

It echoes in the hills of the Vindhyas and Himalayas.

Mingles in the music of Yamuna and Ganga

And is chanted by the waves of the Indian Ocean.

They pray for Your blessings and sing Your praise.

Protection of all people waits in Your hand.

You are the dispenser of India's destiny.

Victory, victory, victory to You.

கொடிபாடல்

தாயின் மணிக்கொடி வானில்

உயர்ந்து சென்று பறந்திடுதே

அதன்கீழ் நின்று பணிந்திடுவோம்

சாதி மத உயர்பேதங்கள் மறந்து

நமது மகாத்மாவினை நினைந்து

சாதி மத உயர்பேதங்கள் மறந்து

நமது மகாத்மாவினை நினைந்து

சத்தியம் ஜெயம் என்ற கொள்கையை

உணர்வோம்

தாயின் மணிக்கொடி வானில்

உயர்ந்து சென்று பறந்திடுதே

அதன்கீழ் நின்று பணிந்திடுவோம்

நின்று பணிந்திடுவோம்.

CAMBRIDGE PRIMARY

Alpha's Primary years Programme is built around the Cambridge Primary which provides a framework to develop Math, English and Science knowledge in young children. During these years, we motivate a learner to be increasingly curious and discover, individually, information about the surrounding world. It's advantages are:

- **Foundation for secondary education:**

The Primary programme aids identification of a learner's strengths and weaknesses to support learning and development. The Primary programme progresses learners seamlessly into the middle years programme.

- **External benchmark:**

As an international programme, the Primary Programme provides teachers with an external benchmark to easily measure the learner's progress over time.

- **International curriculum:**

Appropriate and relevant internationally, the Primary Programme has been designed to be culturally sensitive. It includes top-quality teachers and assessment resources appropriate for teaching and learning in international schools.

- **Flexibility:**

It complements a range of teaching methods and curricula. Other than Math, English and Science, Universal has included subjects like ICT, The Arts, (Visual / Digital / Performing) Humanities, and additional languages.

CAMBRIDGE LOWER SECONDARY

Cambridge Lower Secondary provides a seamless progression from Cambridge Primary - or can be used as a standalone curriculum - to develop the learner's skills and confidence in English, Mathematics and Science. It offers a curriculum framework for educational success for learners, typically 11-14 year olds, with an optional testing structure. Cambridge Lower Secondary incorporates internationally benchmarked tests.

Tests for Cambridge Checkpoint are standardised, so provide an international benchmark of student achievement enabling teachers to advise learners and parents of the suitability of different progression routes.

It also provides excellent preparation for learners embarking on Cambridge Upper Secondary; both for Cambridge IGCSE and Cambridge O level courses.

CAMBRIDGE UPPER SECONDARY - IGCSE

Cambridge IGCSE is the world's most popular international curriculum for 14-16 year olds, leading to globally recognized and valued Cambridge qualifications. It is part of the Cambridge Upper Secondary stage. Schools worldwide have helped develop Cambridge IGCSE, which provides an excellent preparation for the Cambridge Advanced stage including Cambridge International AS and A Levels and Cambridge Pre-U, as well as other progression routes. It incorporates the best in international education for learners at this level. It develops in line with changing needs, and is regularly updated and extended.

Cambridge IGCSE encourages a learner-centred and enquiry-based approach to learning. It develops the learner's skills in creative thinking, enquiry and problem solving, giving learners an excellent preparation for the next stage in their education. Schools can build a core curriculum, extend it to suit their learners and introduce cross-curricular perspectives. Cambridge IGCSE is compatible with other curricula and is internationally relevant and sensitive to different needs and cultures. Schools can offer any combination of subjects. Cambridge IGCSE develops learner knowledge, understanding and skills in:

- Subject content
- Applying knowledge and understanding to familiar and new situations
- Intellectual enquiry
- Flexibility and responsiveness to change
- Working and communicating in English
- Influencing outcomes
- Cultural awareness

CAMBRIDGE ADVANCED (AS & A LEVEL)

Cambridge AS & A level builds on the foundations of Cambridge IGCSE and is typically for learners aged 16 to 19 years to prepare them for university and higher education. Cambridge International AS & A Level is a two-year course. Universities worldwide value and recognize Cambridge International AS and A Level qualifications.

Students can specialize and study a broad range of subjects. The syllabus helps to develop independent study skills, thinking skills and a deeper understanding of the subjects.

Thousands of Learners gain places at leading universities around the world with Cambridge International AS and A Levels every year.
